# Slugs With Attitude

Max Kerscher-Santelli - [mkersche@ucsc.edu](mailto:mkersche@ucsc.edu)

Daniel Roberts - [rwdaniel@ucsc.edu](mailto:rwdaniel@ucsc.edu)

Sean Mendenhall - [semenden@ucsc.edu](mailto:semenden@ucsc.edu)

Will Herrera - [gcherrer@ucsc.edu](mailto:gcherrer@ucsc.edu)

Rahul Patel - [rpate3@ucsc.edu](mailto:rpate3@ucsc.edu)

How many people played sports in High School?

Do you still play that same sport?

Would you like to get back into it?

# Introducing Slug Sports

- Facilitate pick up sports games
- Help students meet each other
- Promote exercise

# Sprint 1: UI

High Level Goal: Create a working user interface

*As a user I need to be able to find the sport that I want to play so that I can look for other people who also want to play that sport.*

*As a developer I need to familiarize myself with Java and Android Studio in order to create a clean and functional interface.*

# Sprint 2: User Functionality

High Level Goal: Add basic features that will help users organize games

*As a user I want to way to see and track the people who have joined my game to prevent large numbers of people from showing up.*

*As a developer I need to incorporate the OPERS calendar within the application to help users plan their games and prevent conflicts.*

# Sprint 3: More User Features

High Level Goal: Add more features that will enhance the user's experience

*As a user I want to have a comment system so that communication with others becomes easier.*

*As a user I want to have a map of the UCSC Campus so I can see where the fields and courts are located.*

# Stretch Goals

- Interactive Map
- Link to Google account
- Push notifications
- and more...
