

Slug Sports User Guide:

Description:

Slug Sports is the easiest way to arrange pick up sports games amongst the UCSC community. This app provides an easy to access public place for people to schedule pick up sports games with all other Slug Sports users. You can post a game that other people can join or join games others have already posted. Using our app will help you play more of the sports you love and help you stay active in the UCSC community.

Download instructions:

To download the app simply search for 'Slug-Sports' in the Google play store. When you find it click download. Slug Sports is free for all users but will require internet or phone connection.

Tutorial:

1. The first screen of the app will prompt you to sign in. You can use either your UCSC email and blue password or a Gmail email and password as an account.
2. Once you are signed in you will see a list of sports. Click on the sport that you are trying to play.
3. After choosing a sport a list of locations to play that sport will appear. Choose the location you wish to play at.
4. A list of days will come up after you have chosen a location. Pick the day you wish to play and the calendar for that day will appear.
5. You can choose to join an event on the calendar by clicking the 'Join' button. Event that do not have a join button are times when the location you have chosen will be busy with events that are not open to the public and thus cannot be joined.
6. If you would like to create an event of your own so that others can join simply click the new event button in the top right corner. You will be prompted to enter details about your event such as the time you wish to play, whether or not you will supply the necessary equipment and a description of your event. Once you click create the event will be added to the calendar and other people can join.

If at anytime you are confused about what to do in the app just click to question mark at the bottom right of the page and a tutorial for that page will pop up.
